THE SUPPRESSED BOOK ABOUT SLAVERY.—A book written in plain, intelligible language, and containing the most important events of a son of very considerable learning, maintaining digressions, and large and discriminating powers of research. It is destined, if we mistake not, to enjoy the comparatively rare merit of being at once the best book of the student and the hand-book of the philosopher. ALSO JUST RECEIVED.

MODERN PHILOLOGY: ITS DISCOVERIES, HISTORY AND INFLUENCE. By JEROME W. DWIGHT. 1 vol., octavo, \$3.50.

It presents in a thorough and comprehensive manner the discoveries of the New Philology, to repeat, Latin, Greek, and especially the Semitic, and its consequences of which are however for the first time in their analytic and mutual explanatory connections.

From the "Bookster" (a London monthly), England.—"This

volume is written in plain, intelligible, and unpretending language, and presents the whole field of a son of very considerable learning, maintaining digressions, and large and discriminating powers of research. It is destined, if we mistake not,

to enjoy the comparatively rare merit of being at once the best book of the student and the hand-book of the philosopher.

BY PRESIDENT WOOLSEY.

INTRODUCTION TO THE STUDY OF INTERNATIONAL LAW.

DESIGNED AS AN AID IN TEACHING, AND IN HISTORICAL STUDIES. By G. WOLSTENHOLME, LL. D. In two volumes, \$12.50.

The work has an historical rather than a legal cast, and was intended, as its title indicates, for the student of history, law, and politics. It is, however, a complete and accurate digest of the science, and on some points, as the law and forms of war, fully carries the treatise designed expressly for the lawyer and statesman.

It touches very fully on some points of the science which the present war has brought up.

ANCIENT LAW.

ITS CONNEXION WITH THE EARLY HISTORY OF SOCIETY, AND ITS RELATION TO MODERN IDEAS. By HENRY SUMNER MANN, with an Introduction by THOMAS W. DWIGHT. 1 vol., octavo, \$3.50.

The London Quarterly review says, "The work of an accurate and learned mind and contains the results of much thought and study, expressed in singularly terse, clear, intelligent English."

The "Westminster Review" says, "It is a history read from the top to bottom, and easily followed by the hand of history. It is a history which addresses itself as much to the general student as to the lawyer."
